

PARTNERS OF GSSD EXPO

The GSSD Expo is not intended to be a conference about problems or a presentation of abstract scenarios and recommendations for solving them. Rather, the Expo is designed solely to bring together developing countries and their development partners - including donors, organizations of the United Nations system, and private-sector and civil society

organizations - to methodically and regularly share their evidence-based development solutions. The inaugural GSSD Expo was a success primarily because of the creativity, innovation, solution exchange and network facilitation made possible by our partners.

Country	Type of Organization	Name of Organization
